

John Medeiros™

Jewelry Collections

Lanna Collection Timeless. Admirable. Extraordinary...

John Medeiros is proud to present the Lanna Collection, his largest and finest ensemble. The Lanna Collection includes designs reflective of kidney shaped beads with hand cut cubic zirconia accents of amethyst, pave crystals, multiple strands and his traditional mixture of Rhodium and gold two tone effects. This namesake collection is beautiful and compelling just as is Lanna's story.

In September 2010, Lanna at the age of 56 selflessly donated her kidney to a woman she had never met. The recipient was a wife and mother of four young boys who was suffering from the devastating effects of diabetes and relied on dialysis to sustain her life. Lanna's admirable and courageous kidney donation added years to this woman's life. Though Lanna's story of giving life to a stranger is rare, powerful, and beautiful, so is this collection of jewelry.

The Lanna Collection is a compelling reminder of the beauty of life.
